

Technology trends and analysis presentation

Ramya Saka 12th Jan, 2023

OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

• Trends in programming languages and databases.

- Demographic survey
- Gender gap in jobs
- Technological gap in countries

INTRODUCTION

About:

Analyzing the trends in software development.

Purpose:

- Identifying skill requirements for future.
- What are the top programming languages in demand?
- What are the top database skills in demand?
- What are the popular IDE's?

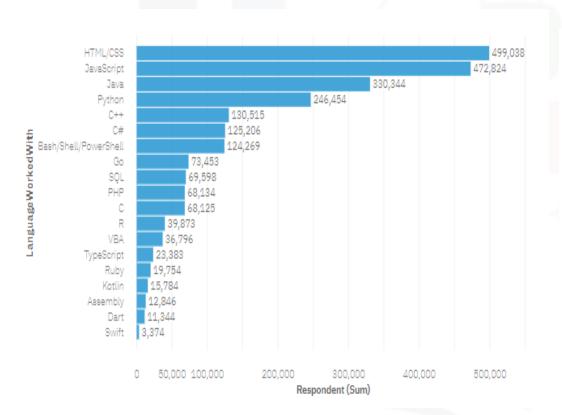

METHODOLOGY

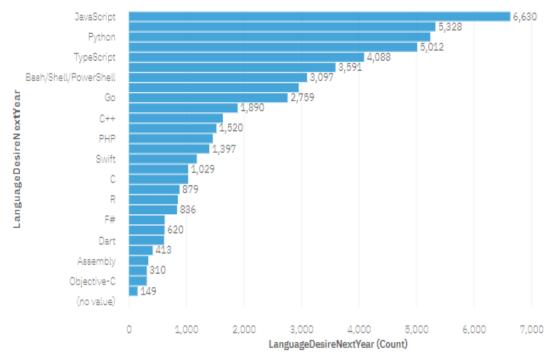

- Data collection sources
 - Git hub job postings
 - Stack overflow developer 2019 survey
 - Programming languages annual salary
- **Data Exploration**
- **Data Cleaning**
- **Data Visualization**
- Presentation

PROGRAMMING LANGUAGE TRENDS

Languages worked current year

Languages desired next year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & **IMPLICATIONS**

Findings

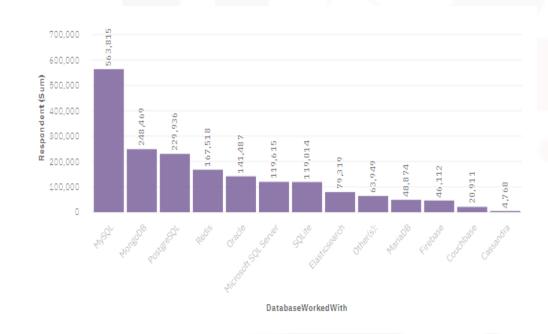

- HTML/CSS, Java script, Java are in top 3 positions this year.
- Python and typescript are becoming popular next year.
- Power shell edged out in next year.

Implications

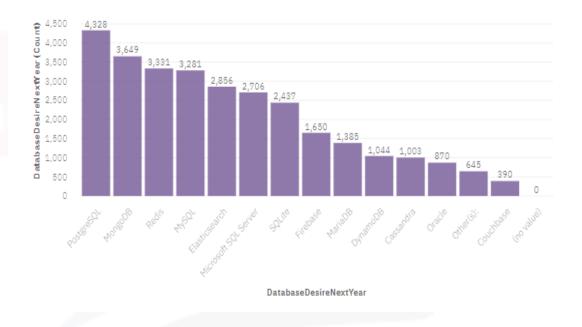

- Web development languages are still in high demand.
- Big data technologies requires SQL.
- With AI and ML in rising demand, python is the best choice.

DATABASE TRENDS

Top databases worked with

Top databases desired next year

DATABASE TRENDS - FINDINGS & **IMPLICATIONS**

Findings

- My SQL is most popular.
- Behind is MongoDB.
- PostgreSQL and Redis are upcoming favorites.
- New kid in the block: Cassandra

Implications

- Open source databases are still preferable in companies.
- NoSQL data will make an impact for storing non-relational data.
- Supports abstract data types.
- Pre tunes search to website, app or ecommerce store.

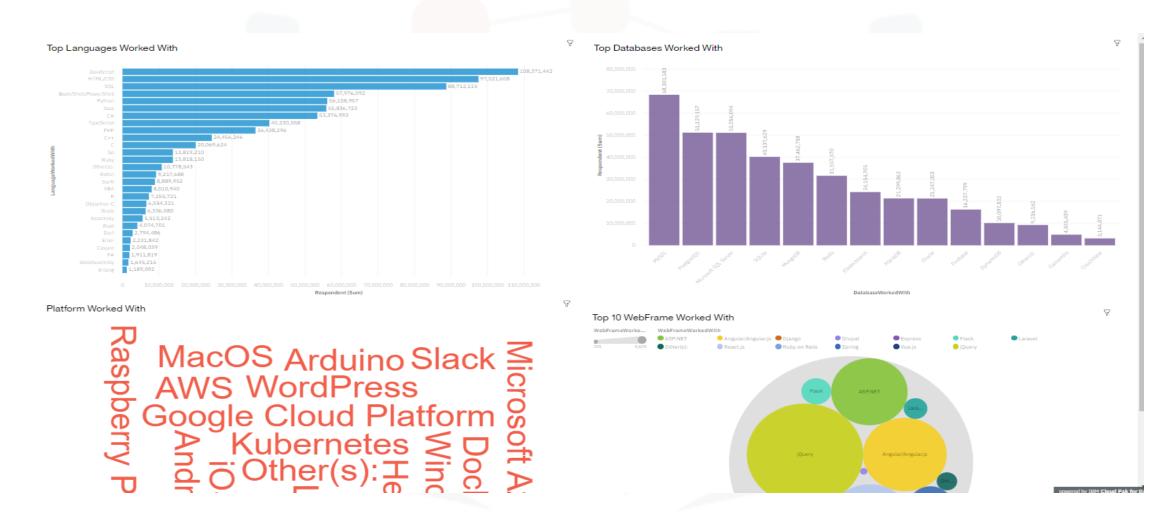

DASHBOARD

DASHBOARD TAB 3

DISCUSSION

- Technology trends now and future.
- Training and reskilling workers.
- Female participation in technology field.
- Bridging technology gaps in developing countries.
- Eliminate age and education discrimination in employment.

OVERALL FINDINGS & IMPLICATIONS

Findings

- Fast changing technology every year.
- Concentration on countries like USA and India.
- Gender gap in technology jobs.
- Platforms like Docker and AWS are growing.

Implications

- Companies need to be flexible and adjust to rapid changes.
- Need to spread technology out to lagging countries.
- Impact of job hiring's.
- Shift to faster app deployments and cloud services in future.

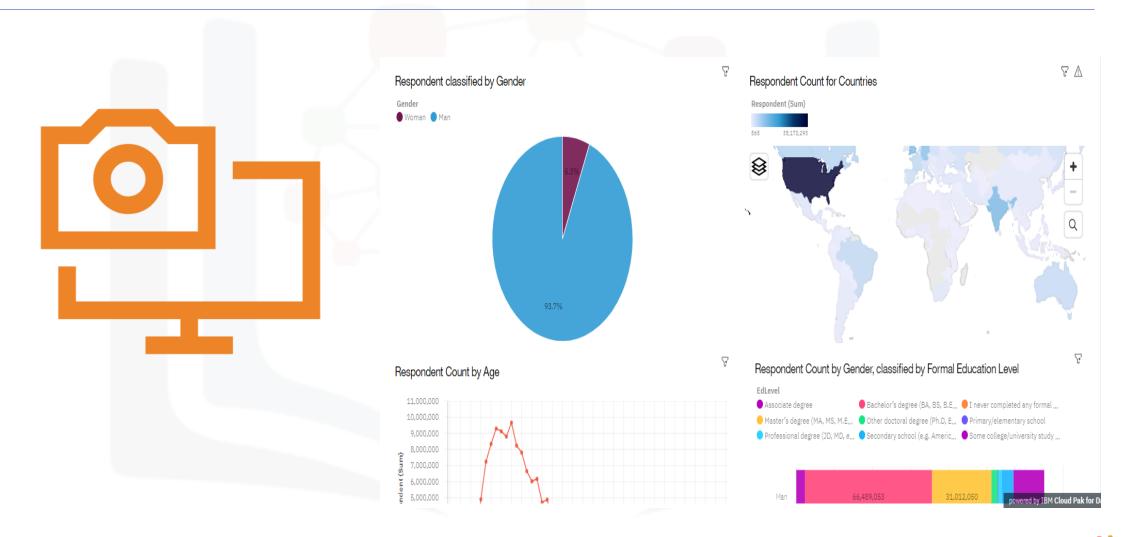

CONCLUSION

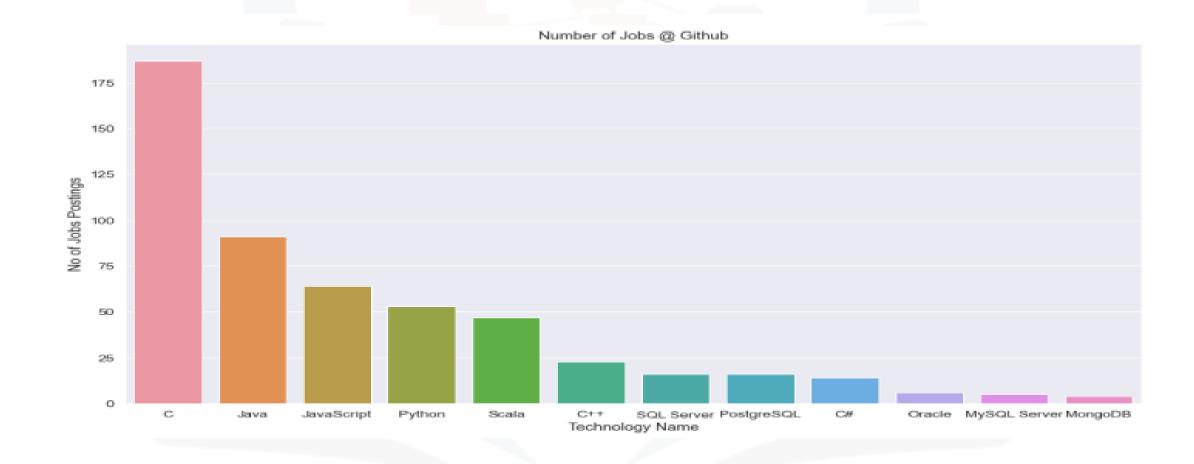

- Technology trends for current year and next year.
- Programming languages, database and platform overview.
- Demographics overview.
- Actions to be taken.
- Incorporate Machine Learning to predict trends and salaries.
